 - Certificate of submission of paper for Publication.

PROGRAM DESCRIPTION

The Master of Occupational Health program is intended to prepare students for careers or responsibilities dealing with health and safety problems in the workplace. It is designed for professionals with diverse academic backgrounds. Emphasis is on principles and methods of occupational health and safety and their application in the provision of health care to workers in all occupations or workplaces.

PROGRAM OBJECTIVE

- Implement health promotion and education strategies in addressing occupational health and safety (OHS) issues;
- Apply research skills and evidence-based solutions in addressing OHS issues;
- Manage OHS programs and services effectively in multi-disciplinary and multi-cultural settings;
- Lead in the application of innovative and socially-responsive approaches for the prevention and management of injury and disease in the workplace;
- Effectively use Filipino and English communication skills in both oral and written form;
- Demonstrate the ability to successfully work in inter-professional collaboration settings while adhering to professional, social, and ethical standards;
- Exemplify positive Filipino values (e.g. damayan, bayanihan, hospitality, compassion) in the conduct of OHS practice; and
- Engage in lifelong learning in the field of OHS.
