## PROGRAM DESCRIPTION

The Master of Clinical Audiology (MClinaud) is a two-year health science program that integrates basic theoretical knowledge and clinical applications in the prevention and management of hearing impairments. The program covers the areas of audiologic evaluation, audiologic habilitation, hearing conservation, and the development of audiology service delivery programs primarily in the Philippines.

## PROGRAM OBJECTIVES

Upon completing the MClinaud program, the graduate will:

1. Perform audiologic procedures exhibiting advanced competencies.
2. Exhibit clinical reasoning in the assessment and management of audiologic conditions.
3. Communicate effectively in the practice of audiology.
4. Engage actively in interprofessional practice.
5. Adhere to professional and ethical standards.
6. Promote the development of audiology in the Philippines
7. Engage in lifelong personal and professional development.
