

## **CURRICULUM**

### **Core Courses | 23 units**

Programming and Databases in  
Data Science  
Data Visualization and Storytelling  
Data Mining  
Statistical Machine Learning in  
Data Science  
Big Data Processing  
Research Methods and Ethics in  
Data Science  
Thesis Proposal  
Thesis Implementation

### **Elective Courses | 8 units**

## PROGRAM DESCRIPTION

The Master of Science in Data Science program is a two-year program which offers qualified students, particularly those with backgrounds in multivariate calculus up to linear algebra and probability theory, the opportunity to do graduate coursework and research in the applications of the concepts and methods to provide solutions to analyze and evaluate health care interventions and outcomes.

The graduates of the Master of Science in Data Science shall receive training that will make them capable of understanding the healthcare sector and medicine, being proficient in health data collection and quantitative analysis and being able to communicate results to the relevant stakeholders amidst the growing number of large and complex datasets.

## PROGRAM OBJECTIVES

At the end of the program, graduates should be able to perform the following roles in data science:

### Researcher:

- Develop scientific conclusions using data science methods on biomedical data in clinical research and translational medicine;
- Evaluate massive biomedical data sets to reveal patterns, trends, and associations using statistical models and machine learning;

### Problem-solver:

- Recommend decisions in healthcare delivery processes using machine learning and optimization techniques
- Formulate statistical models from biomedical data for meaningful analyses relevant to healthcare

### Team player:

- Collaborate with a health professions team on a biomedical data-driven research project

### Effective communicator:

- Design visualizations that effectively communicate results and findings to users
- Interpret biomedical data for exploration and analysis

### Filipino Professional:

- Organize data science activities according to policy, privacy, security, and ethical considerations

## ACADEMIC INFORMATION

### Schedule of Semesters:

1st Semester: August to December

2nd Semester: January to May

Midyear: June and July (6 weeks)

*\*\*English is generally used as the medium of instruction.*

### Number of Units:

Full-time: 9-12 units/semester

Part-time: 1-8 units/semester

Midyear: 6 units

### Fees:

Tuition Fee: P3,000.00/unit

Laboratory Fee: P3,000.00/unit

Library Fee: P1,050.00

Other Fees: P350.00/semester

Processing Fee: P300.00

### Additional Fees for Foreign Applicants:

Processing Fee: US\$ 30.00

Educational Development Fund: US\$ 500.00

(US\$100.00 for residency only)/semester

### Submission of Applications:

1st Semester: February until the last working day of April

2nd Semester: September until the last working day of October

### The following are the grade requirements for each student to be of good standing in the program:

- 1) General weighted average of 2.00 or better;
- 2) Weighted average of 2.00 or better for the major/required courses; and
- 3) No grade of 5.00 in any academic course.

*\*\*A maximum of 5 years is given to a student to finish the program.*

*Living accommodations for students may be provided in privately-owned housing units/dorms/apartment hotels. Dorms offer lodging and/or board. There are privately-owned eateries around the school.*

APPLICATION

## ADMISSION REQUIREMENTS CHECKLIST

The following are the minimum NGOHS requirements:

1. Graduates of BS Data Science, Computer Science, BS Statistics, BS Applied Mathematics or Engineering programs and other allied undergraduate courses who have basic training in multivariate calculus up to linear algebra and probability theory are eligible for admission into the program.

Otherwise, prospective students may opt to take the undergraduate equivalent (Math 85, Math 120, Stat 121) in the BS Computer Science program of UP Manila or the proposed preparatory course DS 21.

2. Duly accomplished Application Form (downloadable through the NGOHS website: ngohs.upm.edu.ph)
3. Comply with the General requirements found on the 2nd page of the Application Form (UPM-NGS-OP-01F1)

### Graduation Requirements:

- ☐ Residency of at least one full academic year prior to granting of degree
- ☐ Completion of 31 units (23 units of core courses, and 8 units of electives)
- ☐ A general weighted average of 2.00 or better.
- ☐ Certificate of submission of paper for Publication.
